

New Deal Programs

- Roosevelt's New Deal programs aimed at three R's - relief, recovery and reform
- The three - R objectives often overlapped and got in one another's way
- You don't need to know all of the New Deal programs but you need to know some.
- In your notebook, create a chart (or other format) that includes two programs that could be included for each of the 3 R's. Provide a brief explanation for each and indicate the degree to which it was successful.
